

Manage Domain Email Account

Go to www.greenhills.net, click on the “customer center” tab, then click on “domain account log in page”. Enter your domain name (no ‘www’) and password (Example: greenhills.net)

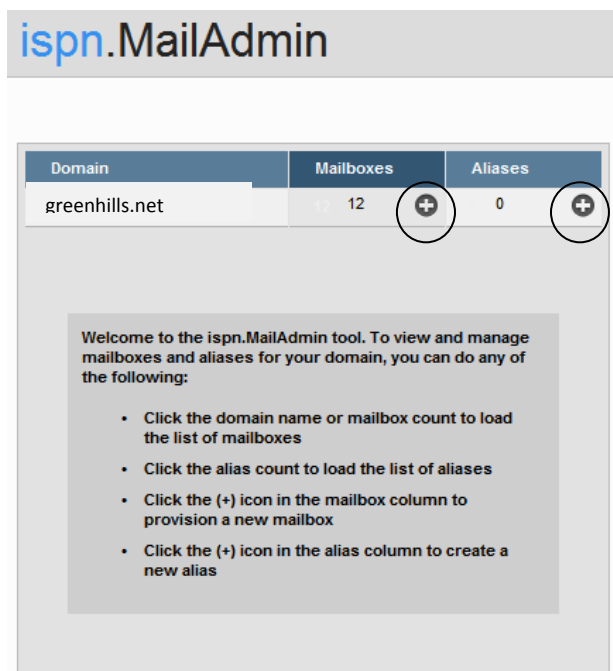

Access to this interface is restricted. Please login.

UserName:

Password:

This screen shows you the number of email boxes you are using for your domain. The list of mailboxes will be displayed on the right.

To add a mailbox or aliases click on the plus sign.

ispnl.MailAdmin

Domain	Mailboxes	Aliases
greenhills.net	12 (+)	0 (+)

Welcome to the ispnl.MailAdmin tool. To view and manage mailboxes and aliases for your domain, you can do any of the following:

- Click the domain name or mailbox count to load the list of mailboxes
- Click the alias count to load the list of aliases
- Click the (+) icon in the mailbox column to provision a new mailbox
- Click the (+) icon in the alias column to create a new alias

To edit mailbox information, click on the wheel beside the e-mail address.

To edit password information, click on the key beside the e-mail address.

To delete, click on the trash can beside the e-mail address.

How to check your web hosting statistics

Open your browser and type in <http://yourdomainname.com/awstats>.
